Dear Resident,

Giving communities on Anglesey improved broadband access is a key part of levelling up opportunity for our island. Without a good broadband network many businesses cannot establish or work efficiently, individuals cannot access facilities that are now part of daily life and communities are disadvantaged.

I know from my inbox that broadband is poor in many parts of Anglesey and I have been working with a team headed up by Bangor University to bid for funding to improve the situation. To make the case even stronger, we need to map out the pattern of broadband availability across the island.

I am asking for your help to construct this map. Whether your broadband is excellent, non-existant, or somewhere in between, please fill in my survey at www.virginiacrosbie.co.uk/broadband

Every contribution is valuable because the more detailed the map, the better able we will be to obtain funding and target it where it is really needed.

Virginia VIRGINIA CROSBIE MP

mY PLAN FOR BETTER BROADBAND ON OUR ISLAND

01 I'm launching an island-wide broadband survey to get a full picture of the worst-affected areas

Rwy'n lansio arolwg band eang ledled yr ynys i gael darlun llawn o'r ardaloedd yr effeithir arnynt waethaf

02 I will be working with Bangor University and their partners to analyse data so funding bids are targeted where needed.

Byddaf yn gweithio gyda Phrifysgol Bangor a'i phartneriaid i ddadansoddi data er mwyn i'r ceisiadau am gyllid gael eu targedu lle mae eu hangen

03 I will put pressure on the UK and Welsh Governments to take tangible action to improve tech infrastructure here

Byddaf yn rhoi pwysau ar Lywodraeth y DU ac ar Lywodraeth Cymru i weithredu er mwyn gwella'r seilwaith dechnoleg yma

04 I will work with private stakeholders including BT Openreach to look at specific problems on a case-by-case basis

Byddaf yn gweithio gyda rhanddeiliaid preifat, gan gynnwys BT Openreach i edrych ar broblemau penodol fesul achos

05 I will explore innovative ways to improve connectivity where broadband is not the right answer

Byddaf yn edrych ar ffyrdd arloesol o wella cysylltedd lle nad band eang yw'r ateb iawn

*SUBJECT TO YOUR BROADBAND SPEED

Annwyl Breswylydd,

Mae gwella mynediad cymunedau Ynys Môn at fand eang yn rhan bwysig o wneud pethau'n fwy cyfartal ar ein hynys. Heb rwydwaith Band Eang does dim modd i fusnesau sefydlu na gweithio'n effeithlon, dydy unigolion ddim yn gallu cael gafael ar gyfleus-terau sydd bellach yn rhan o fywyd bob dydd ac mae cymunedau dan anfantais.

Rwy'n gwybod o'm Blwch derbyn bod band eang yn wael mewn sawl ardal yn Ynys Môn ac rwyf wedi bod yn gweithio gyda thîm sy'n cael ei arwain gan Brifysgol Bangor i wneud cais am gyllid i wella'r sefyllfa.
I wneud yr achos yn gryfach fyth, mae angen i ni greu map i weld lle mae band eang ar gael ar draws yr ynys. Rwy'n gofyn am eich help i lunio'r map hwn. Os ydy eich band eang yn ardderchog, os nad oes gennych chi fand eang o gwbl, neu os ydy eich band eang rhywle yn y canol, llenwch fy arolwg yn www.virginiacrosbie.co.uk/broadband

Mae pob cyfraniad yn werthfawr oherwydd gorau po fwyaf o fanylion a fydd gennym ni ar y map, oherwydd bydd hynny'n gwella'n cyfle i gael cyllid ac i'w dargedu lle mae ei wir angen.

Virginia VIRGINIA CROSBIE AS
